

LET'S MAKE SURE THERE ARE NO MORE MISTAKES LIKE THE BMO SIGNS!

Coming soon?

Another huge, annoying LED lighted sign like BMO will invade your home – unless you act now.

Here's what you do can to stop it!

The building at 2020 N Central Ave has asked the City of Phoenix for a 'MAJOR' amendment' to the building's Comprehensive Sign Plan to erect huge LED bright white signage to invade our homes, yards & balconies. YOU CAN STOP THIS:

1- ATTEND THE PUBLIC HEARING & STAND UP with your neighbors on Thurs, March 14th at 9:00 AM (City Hall – 200 W Washington St -Assembly Room C)

2- SEND EMAIL NOW TO Hannah.bleam@phoenix.gov & zoning@phoenix.gov & say you 'OPPOSE THE SIGN PLAN in ZA-53-19-4' because 'additional bright glare' at 5000 Kelvin color (street lamps are only 2700 Kelvin) will be 'harmful' to you, your family & home value. Write your own message, but use the words 'glare', & 'harmful'. This is 'light blight', an 'invasion', a "trespass", & an 'intrusion' to your property. SEND US A BCC AT StopBrightSigns@gmail.com.

3-9-19

Summer 2016: Erected by BMO on Central Arts Building (Dial Building) at 1850 N Central Ave. Our community fought & won 50% brightness reduction.

"But still too bright"

Proposed 2019: Proposed sign below – to be put on north & south sides of 2020 N Central Ave – is LONGER than BMO & will face **Phoenix Towers, Regency, Tapestry & much of Alvarado, Willo, & other** historic neighborhoods.

"Say NO, don't let another BMO happen"
